

Message for the New Zealand Parliamentary launch of
Securing our Survival: The Case for a Nuclear
Weapons Convention

From the Rt Hon James Bolger
August 9, 2007

Our world is correctly putting considerable focus and effort on major issues like global warming, clean energy and producing sufficient food to meet the needs of a growing world population.

We need a similar commitment by the world community to rid the planet of nuclear weapons.

I personally cannot conceive any circumstances when any Government could justify the use of modern nuclear weapons, so I strongly support moves to achieve a nuclear free world.

Jim Bolger.
Prime Minister 1990-97
Ambassador to US 1998-2002
