

Memorandum for Collaboration between Peace Boat and PNND

Peace Boat and PNND (Parliamentarians for Nuclear non-Proliferation and Disarmament) share the goal of building a safer and more peaceful world, in particular by acting to prevent nuclear non-proliferation and promote nuclear disarmament.

Peace Boat organizes peace education programmes onboard its passenger ship, and in cities and ports as it travels the world. PNND educates and engages legislators from State, Federal/National, and Regional assemblies in nuclear non-proliferation issues and initiatives.

Considering their common commitment for nuclear disarmament on the levels of civil society and political decision-making, there is a direct connection between the programmes of Peace Boat and PNND. Peace Boat and PNND thus agree to collaborate in order to enhance their individual and collective efforts to achieve the goal of nuclear abolition.

PNND agrees to help identify suitable parliamentarians to be expert speakers for Peace Boat's disarmament education programmes and events, and to inform parliamentarians about Peace Boat initiatives as appropriate.

Peace Boat agrees to promote PNND and key parliamentary initiatives to legislators and civil society through its programmes and events.

PNND and Peace Boat agree to explore the possibilities of co-organizing nuclear disarmament-related meetings or activities either on board or coinciding with port visits of Peace Boat.
