Avoiding the next war

The ethics within the pension fund management

- Ethical guidelines for the Government Pension Fund - Global - since November 2004.
- Prohbids investments which constitute an unacceptable risk that the Fund may contribute to unethical acts or omissions, such as violations of fundamental humanitarian principles, serious violations of human rights, gross corruption or severe environmental damages.
- Managing bodies: The Ministry of Finance, the national bank and the council for ethics.

The funds mechanisms for ethical investments and divestments:

- The ethical basis for the Government Pension Fund Global is promoted through the following three measures:
- A. Exercise of ownership
- B. Negative screening of companies
- c. Exclusion of companies from the investment universe where there is considered to be an unacceptable risk of contributing to:
 - Serious or systematic human rights violations, such as murder, torture, deprivation of liberty, forced labour, the worst forms of child labour and other child exploitation
 - Serious violations of individuals' rights in situations of war or conflict
 - Severe environmental damages
 - Gross corruption
 - > Other particularly serious violations of fundamental ethical norms

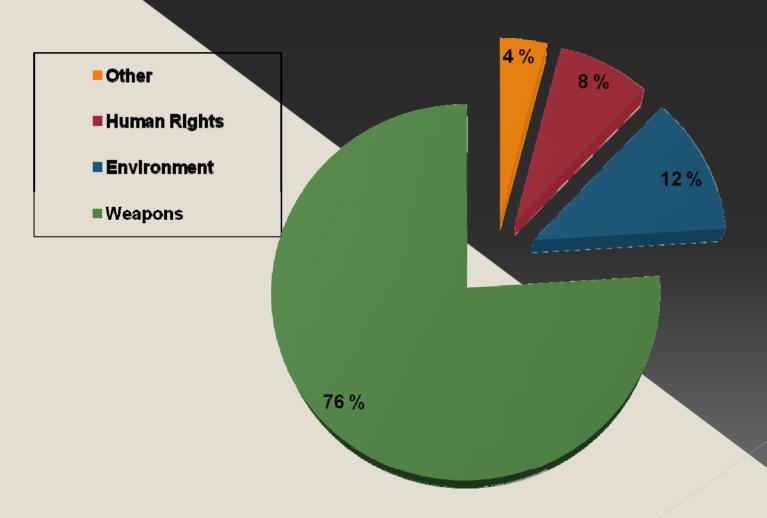

The disinvetments

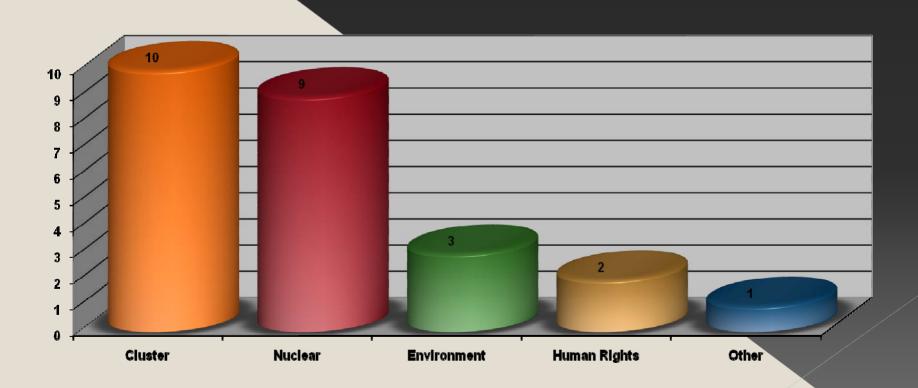

- Since april 2005, the Council has recommended divestment in companies in thirteen occations.
- In total these recommendations recommended divestment in 24 companies.
- Three of these recommendations has later been reversed.

Room for improvements?

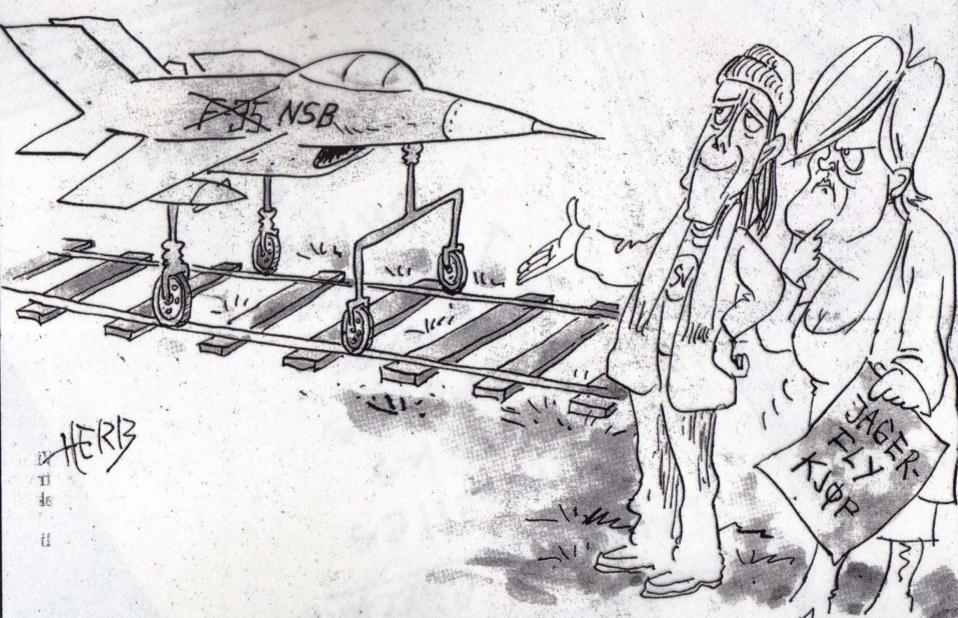

"Key components" covers only
Guidance system, motors and warheads

Banks have been considered, but not excluded

 Consistency – Norwegian defense spending and buy back schemes

Consistency

Divesting from "controversial weapons" – The broader picture

Netwerk Vlaanderen

Early 2004 report into the links between five major Belgian bank groups and producers of controversial weapon systems.

KBC

- Early 2004 negative investment criteria extended to 'companies that manufacture or trade in weapons that are not prohibited by law, but are internationally recognized as having led to disproportionate suffering among civilians in the last fifty years'.
- > KBC's example followed by other banks, e.g. ING, Dexia and Fortis.

Norwegian Government Pension Fund – Global

Norwegian Government Pension Fund's example followed by other investors, particularly in the Nordic markets.

Zembla (March 2007)

- ABP
- > PGGM (covers also depleted uranium ammunition)

For further dicussions

• How can we measure the effects of these Norwegian disinvestments?

• Nuclear weapons are "controversial weapons" but aren't all arms production "controversial"?

 Revising the guidelines – all your interventions are welcome
